"THE APPLE"

By Jimmy Brunnelle

"The Apple" is a crazy fictional story about perceptions that people may create and project about Art. It explores, comically, how some people mistakenly think a work of art is responsible

for their perceptions, and how sometimes this thinking can end in an act of censorship. Making it larger than life, and over the top.

Our setting is a Museum. All the Art work and set designs , props were created and built by the children and back stage crew in the Children's Theater Group.

"The Apple"

I enjoyed sitting in the audience yesterday and watching your wonderful one act play. The costumes, props, scenery, ARTWORK (!), speaking, and singing were all very well done. I am sure there is a future for many of you in the theater, should you choose to pursue it.
Congratulations! I am proud of you! ☺ ☺ ☺
